Land Acknowledgement

GVIAS and Burn in the Forest would like to acknowledge our hosts and that the land on which we gather is the unceded S'ólh Téméxw – Stó:lō Traditional Territory, of which the Xwchíyò:m (Cheam First Nation) is a part. The Stó:lō peoples have a long history of caretaking this land for themselves, guests, and future generations.

We are grateful to our hosts for the lease of the land upon which we are strengthening our community. According to our principles, we will leave without a trace to respect the continued caretaking and connection here.

The 10 Principles of Burning Man

Radical Inclusion

Anyone may be a part of the event. We welcome and respect the stranger. No prerequisites exist for participation in our community.

Gifting

Our community is devoted to acts of gift giving. The value of a gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value. While many people design and offer physical trinkets, gifting is as much about sharing your time and talents in different ways. Some choose to create and install art, others build theme camps to host community campers or gift performance as all-day interactive theatre.

Decommodification

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

Radical Self-reliance

The event encourages the individual to discover, exercise and rely on his or her inner resources.

Radical Self-expression

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

Communal Effort

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

Civic Responsibility

We value civil society. Community members who organize events should assume responsibility for public welfare and endeavor to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state and federal laws.

Leaving No Trace (LNT)

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

Participation

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart.

Immediacy

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

Safety Blurbs

Rangers

Rangers are burners who volunteer to help out their fellow community members. Rangers are our “eyes and ears” who help maintain the safety and well-being of event participants, often acting as non-confrontational community mediators.

Rangers help educate and acculturate burners to the event, act as a source of information, respond to emergencies and coordinate appropriate resources, maintain fire perimeters, help disoriented participants find their way, and mediate disputes between participants.

You can find Rangers walking the event in pairs wearing blue BC Rangers t-shirts and carrying radios. You may also find Rangers at Ranger HQ.

A Word on Consent

Our community aims to be a respectful space for all participants and consent plays a large part in this. It is important to know your personal boundaries, to be comfortable expressing them, and to ask about and respect the boundaries of others.

Remember that only a positive response means “yes” and every other response means “no”. Remember to respect others’ “no”, whatever form that takes.

Communicating about consent is always essential, especially in sexual situations. BitF can be a charged environment, and we want to ensure that we co-create a safer space for radical self-expression while protecting against harassment and assault.
